Our Products

Metal Fire Doors

Our metal fire doors are engineered for maximum fire resistance and durability. Made from galvanized or stainless steel with fire-resistant insulation, these doors provide unparalleled protection.

Key Features:

- Fire rating: 60–120 minutes
- Pre-engineered with durable powder coating
- Available in various sizes and designs
- Tested and certified to international standards

Wooden Fire Doors

Combining aesthetics with safety, our wooden fire doors feature hard or teak wood frames with fire-resistant composite shutters. Perfect for environments where a more traditional look is desired without compromising on safety.

Key Features:

- Fire rating: 120 minutes
- Available in various wood finishes
- Customizable designs to match your interior
- Excellent sound insulation properties

🔒 Panic Bars

Our panic bars ensure quick and easy egress in emergency situations. Compliant with National Building Code (NBC) standards, these bars are essential for commercial and public buildings.

Key Features:

- Single/double-point locking mechanisms
- Available from top brands: DORMA, GEZE, YALE, etc.
- Easy to install and maintain
- Suitable for various door types

🚪 Door Closers

Our range of door closers includes both concealed and hold-open types, all fire-rated for maximum safety. These closers ensure doors shut properly, maintaining the integrity of fire compartments.

Key Features:

- Fire-rated for safety compliance
- Available in various finishes to match door hardware
- Adjustable closing speed and force
- Suitable for high-traffic areas

Dead Locks

Our dead locks are made from corrosion-resistant 304-grade steel, offering superior security and longevity. Ideal for both residential and commercial applications.

Key Features:

- High-security locking mechanism
- Corrosion-resistant 304-grade steel construction
- Available in various finishes
- Easy to install and maintain

D Handles

Our heavy-duty D handles are available in 304 and 202 grade steel, offering durability and style. These handles are perfect for fire doors and other high-use applications.

Key Features:

- Available in 304 and 202 grade steel
- Ergonomic design for easy gripping
- Suitable for various door thicknesses
- Resistant to wear and tear

SS Ball Bearing Hinges

Our stainless steel ball bearing hinges are fire-rated for 2 hours and made from high-quality 304-grade steel. These hinges ensure smooth operation and long-lasting performance.

Key Features:

- Fire-rated for 2 hours
- 304-grade stainless steel construction

- Smooth operation with ball bearing mechanism
- Suitable for heavy doors

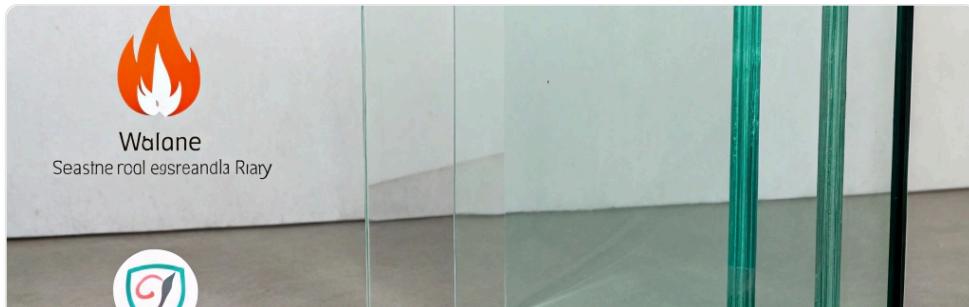

🔒 Mortise & Sash Locks

We offer both mortise locks (with cylinder provision) and sash locks (without cylinder provision). These locks provide secure locking solutions for various door types.

Key Features:

- Mortise locks include cylinder provision
- Sash locks for simpler locking needs
- Available in various finishes
- Suitable for wooden and metal doors

🛡️ Fire-Rated Glass

Our fire-rated glass is designed to withstand high temperatures and prevent the spread of fire. This laminated glass is perfect for areas where visibility and fire safety are both crucial.

Key Features:

- Withstands high temperatures
- Prevents fire spread
- Available in various sizes and thicknesses
- Suitable for doors, windows, and partitions

🔥 🔥 Fire Rated

Flush & Tower Bolts

We offer both flush bolts for securing inactive door leaves and tower bolts for basic locking needs. All our bolts are made from high-quality stainless steel for durability and corrosion resistance.

Key Features:

- Flush bolts for inactive door leaves
- Tower bolts for basic locking needs
- Stainless steel construction
- Available in various sizes and finishes

Fire Doors

Our range of fire doors offers superior protection against fire spread, helping to save lives and property.

Metal Fire Doors

Our metal fire doors are engineered for maximum fire resistance and durability. Made from galvanized or stainless steel with fire-resistant insulation, these doors provide unparalleled protection.
